Landscaping Benefits

- Added beauty and value to your home
- Plantings can soften visual effects of buildings and concrete, while enhancing architectural features
- Plantings can provide privacy from negative neighboring activities including children and pets
- Plantings can provide shade to mitigate prevailing winds and summer heat
- Plantings can provide seasonal dynamics
- Special features such as decks and patios create outdoor rooms
- Landscaping features such as retaining walls and dry creek beds control erosion and ensure proper drainage

Residential Design

Our landscape plans incorporate your personal taste into your landscape. Plans can include:

- Naturalized settings
- Formal & informal gardens
- Patios & intimate spaces
- Retaining walls
- Ponds
- Privacy screenings

Planting Plans

Planting plans and details are prepared so you can install plantings and other elements yourself or hire a certified landscape contractor (MNLA) to do the installation.

Commercial Design

- A complete landscape design will enhance the look and feel of your business and create a good first impression to your customers.
- The design can make your facility warm and inviting.
- Your design will be unique and accentuate your business' identity.
